Dear Aubre:

I have just returned to the City and found a letter from Mr. Neville C. Gardiner, Vice-Chairman of your Committee, and I decided to write to you because I am sure you will explain to him that my seemingly neglect was really unavoidable.

I have just been to Chicago to a joint Meeting of our two Baseball Leagues, and previous to that I had to do a lot of jumping around. I know you can appreciate the fact that this is my very busy time. Do you think you Committee will be functioning this Winter, I am sure I will be able to help you then a great deal more than I could at this time.

I will look to hear from you further, and believe me I am very enthusiastic about your program and would like to see it successfully terminated.

Very truly yours,
